

FreeFileSync AI Enhanced Template Extraction Example

About

FreeFileSync is a free open source data backup software to compare and synchronize files and folders on Windows, macOS, and Linux.

Overview

FreeFileSync is a folder comparison and synchronization software that creates and manages backup copies of all your important files. Instead of copying every file every time, FreeFileSync determines the differences between a source and a target folder and transfers only the minimum amount of data needed. FreeFileSync is Open Source software, available for Windows, macOS, and Linux.

User Reviews

Great app and very useful tool. Bug-free. Intuitive. Has everything you can imagine for file synchronization. Copy. Backup. Compare...

— Elvedin

I'm using this tool for quite some years now. It's better than all the others I've tried before, and in addition it's completely free! Thanks a lot for your splendid work!

— drujo

One of the most useful software tools I know — as a computer user you can live without it, but it makes absolutely no sense!
